REACTION IN COTTON MARKET. SMALL TRADING IN STOCKS MORE STRENGTH IN GRAINS

loss this year of 12.28s bales. Reiterned denials have been made that a car familie exists. In Texas, thus showing that no great amount of cotton is held in this State awaiting shipment, and reports all over the State regarding the tor crop are very discouraging. Claims are very family made that the recent rains, which were followed by a freeze, so budy injured the growthelm as to make it impossible for the corresponding that the recent rains, which were followed by a freeze, so budy injured the growthelm as to make it impossible for them to open. On these statements has been virguisted a new estimate of the crop for Texas and Indian Territory, which is 2.500000 bales, maximum.

Becompared with 100.713 for the same (image) that seek and 51.78.189 toles, compared with 10.78.189 toles, compared wi

for the past week and so far this week show a very heavy falling off. Houston, in particular, showing a decrease of 50 per cent for the week, and it is expected that the receipts for this week will show a fattling off of (0 per cent. The estimate for receipts restarday were very short Houston showing 12,000 to 13,000, against 25,950 inst year, and New Orleans estimates

being given at 15,000 to 14,000, as compared with 25,420 last year.

Another feature which encourages buil factors in the market is the estimate of the demand for American cutton this season, which has been placed at figures ranging from 10,800,000 bales to 11,200,000 bales, and is now considered to be at least 11,000,000. These figures in the face of the shortage in the crop which is learning up give great encouragement to those who have been taiking short crop and high prices. In this connection the following opinion of a New York firm is applicable:

Nov.Dec.	4.38	April May	4.36-27
Dec.Jan.	4.36-37	May June	4.37
Jan.Feb.	4.36-37	June July	4.37
Mar.Apr.	4.36-37	July-Aug	4.37
Mar.Apr.	4.36-37		

The range of prices at New York and New Orleans for active mouths was as fol-
